Experience

Gomycode

Software Developer Intern

Abuja, Nigeria.

January – Present

- As a Junior Software Developer and student, I honed my skills in JavaScript, React, and Typescript, contributing to the development of dynamic web applications.
- I collaborated closely with senior developers to optimise application performance and enhance user experiences. Additionally, I gained valuable experience in agile methodologies, working within cross-functional teams to deliver high-quality software solutions.
- Encouraged teamwork and collaboration, ensuring the successful completion of projects that demonstrated practical skills and problem-solving abilities.

Starkweb Technologies

Software Developer Intern

Abuja, Nigeria.

March – Present

- Built and maintained web applications using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Worked closely with a team of developers, participating in code reviews, pair programming, and agile methodologies to deliver high-quality software.
- Created and maintained technical documentation for both internal use and end-users, ensuring clarity and completeness.
- Managed source code using Git and GitHub, following best practices for branching and merging.
- Developed robust RESTful APIs using Node.js and Express.js, integrating with MongoDB for data storage and retrieval.

Technical Skills

Languages and Frameworks

- Frontend

HTML | CSS | JavaScript | Typescript | Tailwind CSS | React | Component Libraries | NextJs | Redux.

- Backend

NodeJs | ExpressJs

- Database

MongoDB | SQL

Tools

Git | Github | Postman | Slack | Google-workspace | Notion

Project

Apartment Booking

Successfully completed an accommodation rental web application using MERN stack.

Currency Converter

Developed a web application where you can convert currencies to your local currency with updated exchange rate.

Note Application

Built a note application using Node.js and Express.js where user can perform CRUD operations in their notes.

Education and Certifications

International Relations

Wellspring University

2014 - 2017

Software Development

GoMyCode

2024

Responsive Web Design

FreeCode Camp

2024

Postman API Certification

Postman Academy

2024
